# Bring your own Device (BYOD)

BYOD Mode offers the ability to use Neat devices for ad-hoc meetings requiring a 3rd party video service, while making the benefits of Neat's hardware and firmware features available.
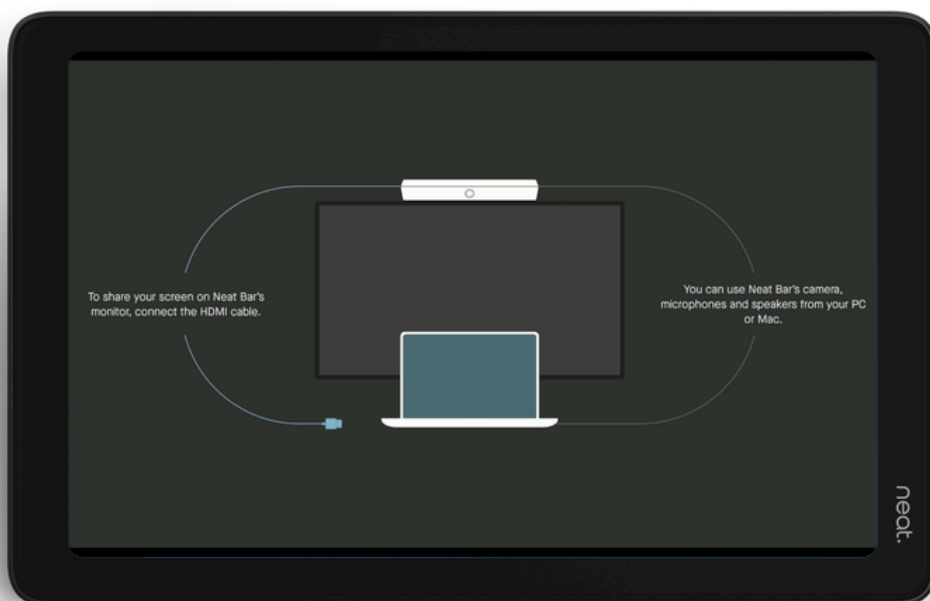

Neat Board 50 and Neat Bar Generation 2
- Connect USB-C cable to your computer.

Neat Bar, Neat Bar Pro, Neat Board
- Connect USB-C & HDMI cable to your computer.

BYOD behavior

Once BYOD is activated the Pad will display a toggle to adjust the Neat Symmetry settings on your Pad to frame participants as individuals or groups.

Resources

BYOD behaves differently depending on which Neat device you are using. For more information, please see the following resources:

- How to set up BYOD mode on Neat Bar devices
